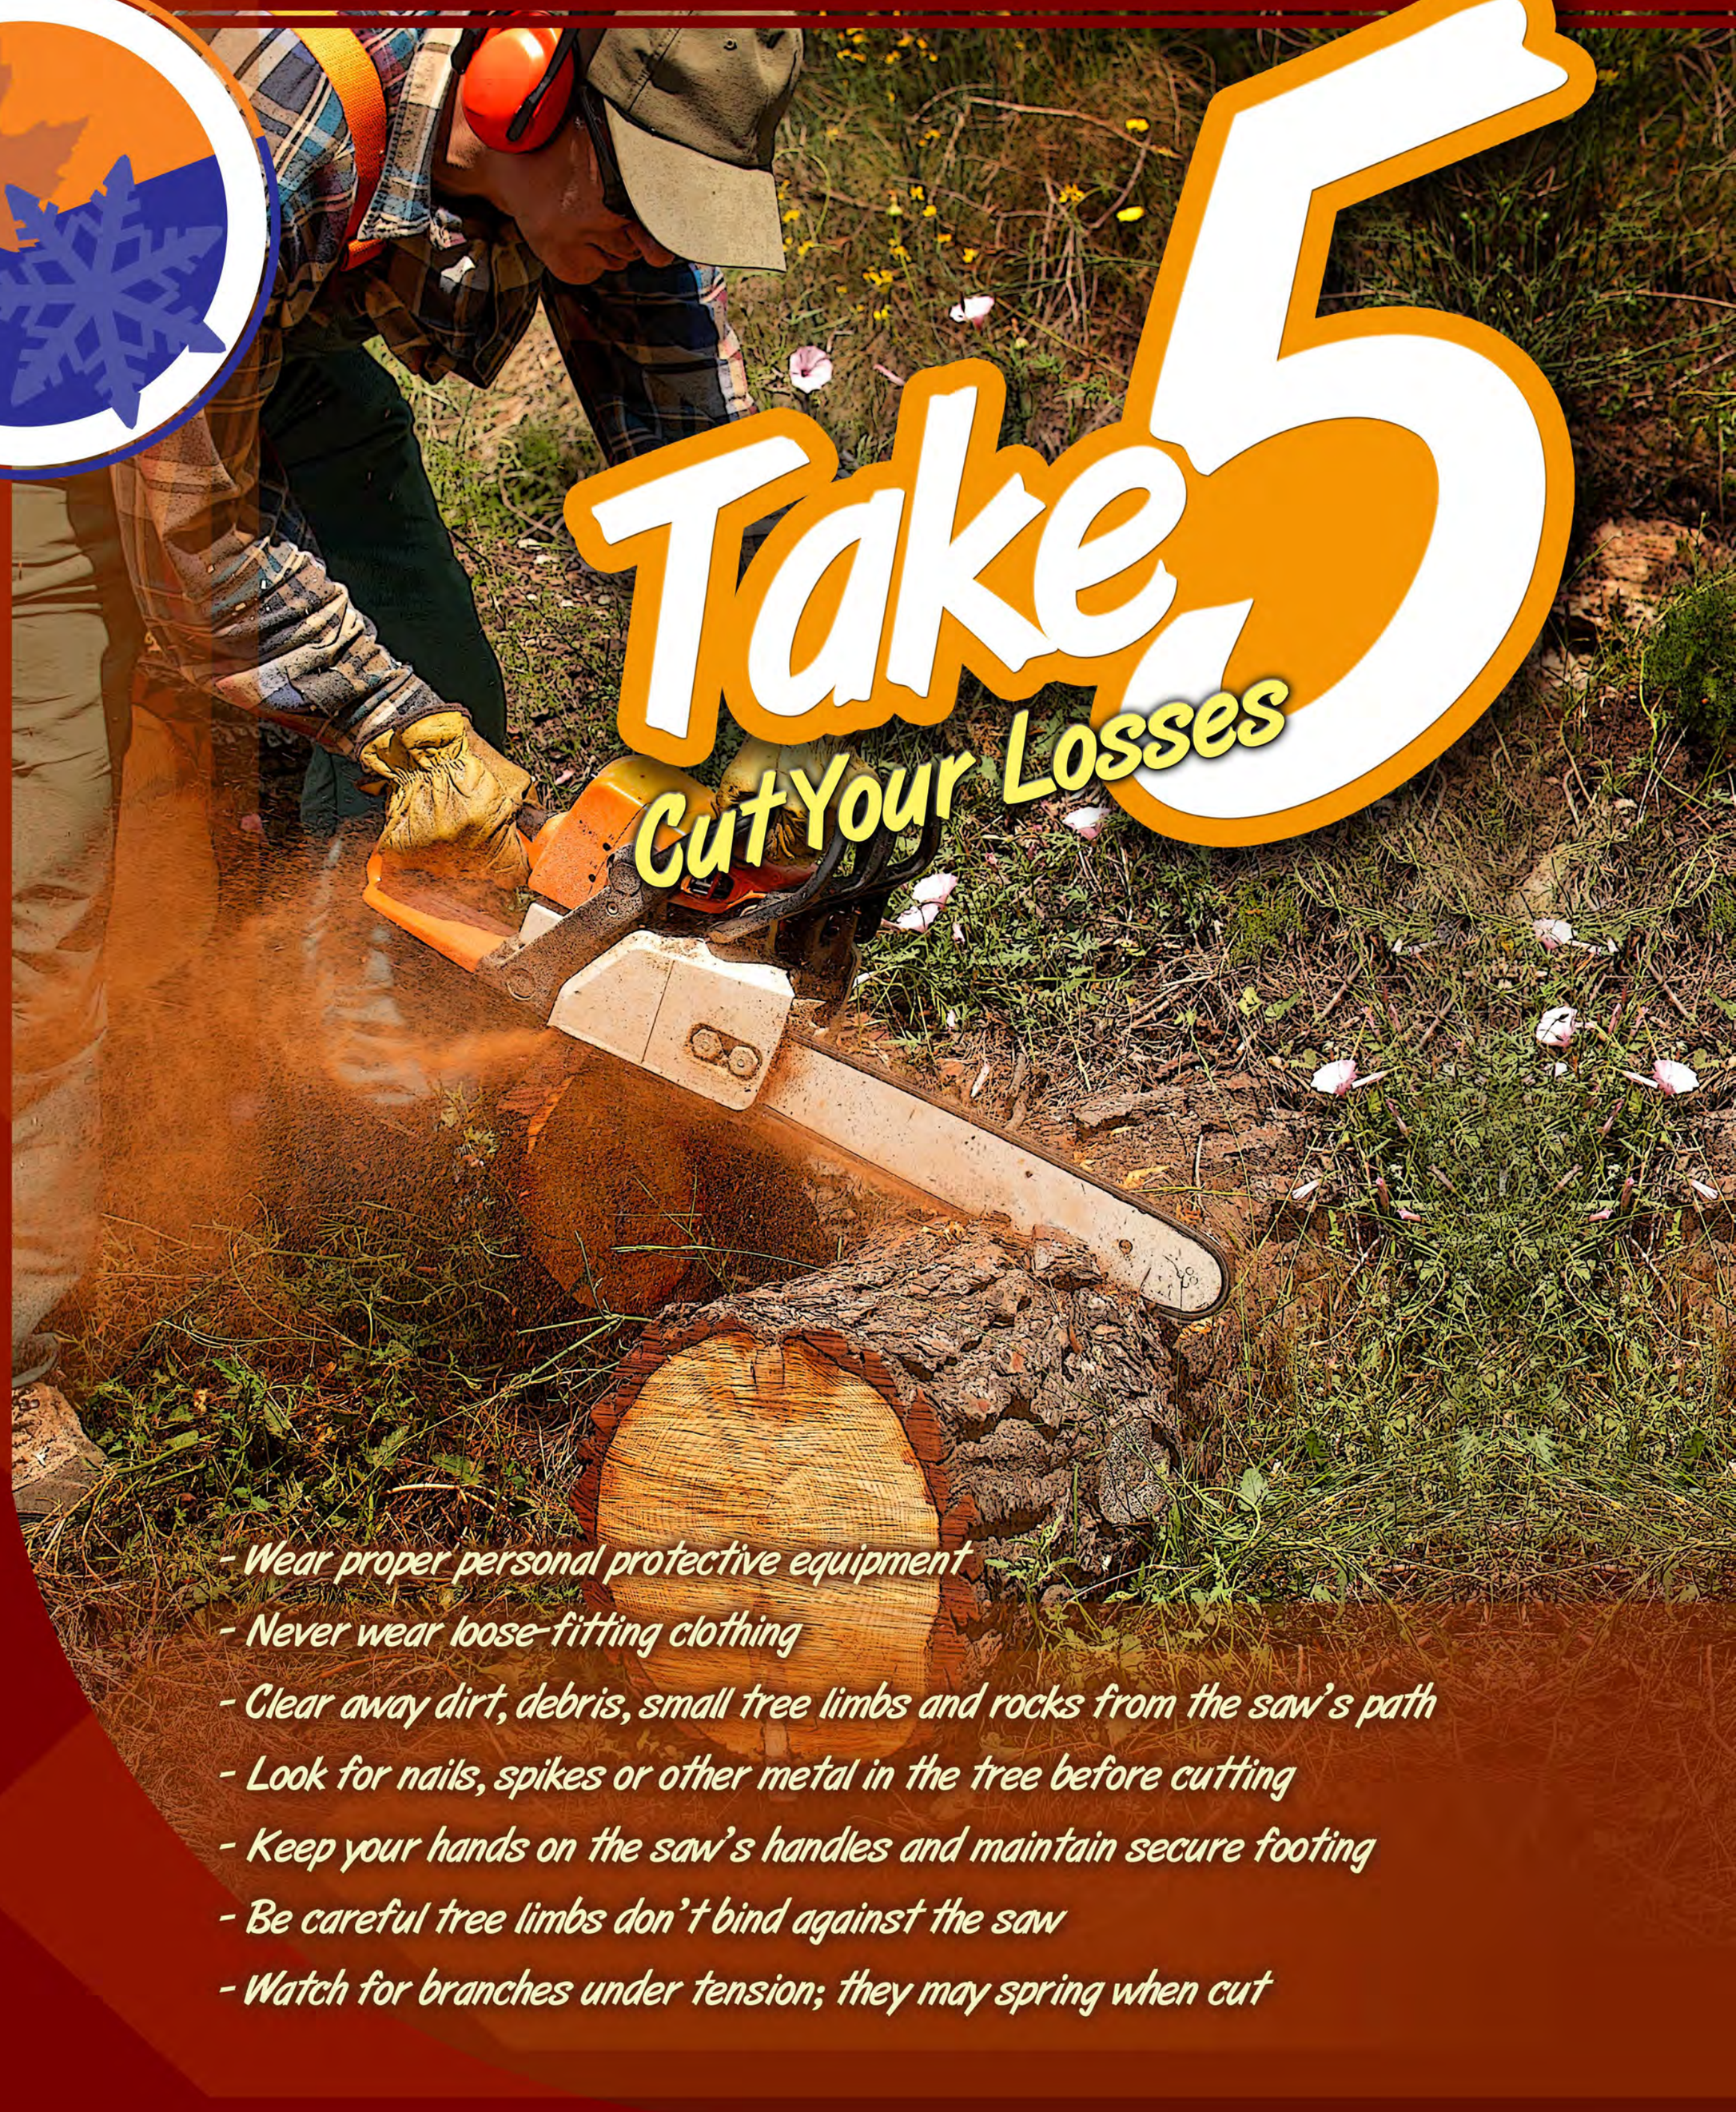
SOLDIERS LEADERS CIVILIANS FAMILIES



Take 5

Cut Your Losses

- Wear proper personal protective equipment
- Never wear loose-fitting clothing
- Clear away dirt, debris, small tree limbs and rocks from the saw's path
- Look for nails, spikes or other metal in the tree before cutting
- Keep your hands on the saw's handles and maintain secure footing
- Be careful tree limbs don't bind against the saw
- Watch for branches under tension; they may spring when cut

U.S. ARMY
ARMY STRONG.
