

EARN YOUR CP-12 LEVEL 1 CERTIFICATION WITH **ONLINE** COURSES FROM UTA

All of our courses meet CP-12 Skill Level I requirements.

The Military Service Center (MSC) within The University of Texas Arlington Division for Enterprise Development is a unique organization dedicated to developing and providing a wide range of professional and technical support and services to the military. We offer solutions tailored to the military community as well as the general public, ranging from professional training and certifications to process improvements and designed interventions.

requirements. We have over twenty CP-12 Skill Level 1 training courses available online. Check out the complete list of online training on our website at uta.edu/ded/msc.

MSC also offers contract training classes: save time and money while increasing the effectiveness of your training program by contracting with UT Arlington to bring our courses and instructors directly to your location. The UT Arlington Military Service Center will deliver any of our courses to your location at a time that fits your schedule. Our instructors will focus on issues specific to your organization and needs.

Let us help you advance your Army safety and health career and meet your CP-12 training
