

READY FOR THE RISK?

GRAT is easy to use and provides users with accident hazard and control information and assists them in producing an automated RM worksheet (DA Form 7566) for their mission, task, or activity. Users can save, e-mail, edit or print the worksheet.

GRAT

GROUND RISK ASSESSMENT TOOL

<https://grat.safety.army.mil>

Two screenshots of the Ground Risk Assessment Tool (GRAT) web interface. The left screenshot shows the 'Welcome to the Ground Risk Assessment Tool' page, which includes a navigation menu on the left and a main content area with a 'Daily Stats' pie chart. The right screenshot shows a 'Regulations and Publications' page with a 'Risk Management Worksheet' section and a photo of a soldier.
