

C-12

CRASH RESCUE

TYPE: TWIN ENGINE, UTILITY
CREW: 2
PASSENGERS - 8

- Emergency entrance is gained through the door on the left side of cabin. The door is opened by pushing button and rotating handle clockwise. (SEE SKETCHES) If door fails to open, entry may be gained through the emergency hatch on the right side of the cabin. The emergency hatch is opened by pushing button, pulling handle, and pushing hatch in. (SEE SKETCHES) Door and emergency hatch are equipped with internal releases.
- First aid kit locations may vary between aircraft.
