

PLR ARMY PRELIMINARY LOSS REPORT

22-079

PMV-2 Mishap Claims One Soldier's Life

A 22-year-old Specialist assigned to Grafenwoehr, Germany, died in a PMV-2 mishap 11 September 2022 in the Czech Republic near Ortschaft Horovice at 1255 local. The Police of the Czech Republic (PCR) reported that the Soldier was traveling at a high rate of speed and lost control. He was pronounced dead at the scene. The unit reported the Soldier as Absent Unknown on 13 September at 1130 hours and was notified of the mishap at 1457 hours. The Soldier was not properly licensed, had not completed the required Motorcycle Safety Foundation training, was not on an approved pass, and did not possess a passport. Additionally, the Soldier was given a written order not to operate his motorcycle. The involvement of alcohol or drugs and the Soldier's use of personal protective is currently unknown. The safety/unit points of contact are waiting for the PCR to release its final report.

Since 2017, the Army has lost an average of 25 Soldiers a year to off-duty PMV-2 mishaps. This mishap was the 24th off-duty PMV-2 fatality of FY22.

PLRs are intended to be used as an engagement tool for leaders to discuss the hazards and trends impacting Soldier safety and readiness. The PLR contains only basic information but provides sufficient background to allow leaders an opportunity to communicate risk at the Soldier level. More detailed information on this and other Army mishaps can be found on the U.S. Army Combat Readiness Center website at <https://safety.army.mil/lessonslearned>.
